EDUCATION

KYRGYZ TURKISH MANAS UNIVERSITY
Bachelor of Economist

Osh, Kyrgyzstan
2003-2008

EXPERIENCE

WebPages,

Saint Petersburg, RUSSIA

Flutter Developer

Jan 2024

I've integrated phone number registration and push notifications into the Proficar app, making it easier for users to register and stay engaged. Now, users can conveniently register using their phone numbers, streamlining the registration process. Push notifications have also been implemented to keep users informed about updates, promotions, and important information in a timely manner.

You can download the Proficar app from both the Google Play Store and the App Store:

- Google Play Store: [Proficar](#)
- App Store: [Proficar](#)

This integration enhances the user experience by simplifying registration and providing valuable updates through push notifications.
